Profile

Front-End Developer with a degree in Management Information Systems (MIS) from Sadat Academy, specializing in building responsive and dynamic user interfaces using **React.js** and **Next.js**. With a strong passion for crafting intuitive web applications, I am committed to continuous learning and development in the fast-paced tech landscape. My technical skill set includes **React**, **Tailwind CSS**, **JavaScript** and animation libraries like **GSAP** and **Framer motion**, with experience in implementing real-time functionalities using **Socketlo**. Although I have exposure to full-stack development, my primary focus is front-end development, where I excel in creating seamless user experiences.

Internships

Full Stack Track (MEARN),

intensive code camp: Information Technology Institute (ITI)

05/2024 – 10/2024

Minya, Egypt

GraduationProject:

-Africano Restaurant: Demo [🔗](#) ,

Developed a full-stack web application for Africano Restaurant with a team, integrating real-time order tracking and customer service chat using Socketlo.

The project features secure user authentication, online payments, and a robust admin dashboard for managing orders, food items, and sales statistics. Docker was utilized for efficient deployment and scalability. Tech stack: React, NestJS, MongoDB, Angular, Socketlo, and Paymob.

Education

A Bachelor's degree in Management Information Systems (MIS),

Sadat Academy for Management Sciences

10/2018 – 07/2022

Minya, Egypt

Grade:B+

Graduated Project: E-commerce site called **ExMarket** For repo:Clickme [🔗](#) as part of my graduation project using Python and Django. The platform allows users to browse, search, and purchase products with a seamless user experience This project marked my first step into the world of development.
